

IN THE SPECIFICATION

Please amend the paragraph beginning on page 41, line 23 as follows:

--(2) The mobile station 70 is moving from the area in which a wireless zone 60Z-1 (hereinafter called the "former visit-zone") and a wireless ~~zone 61-2~~zones 60Z-2 (hereinafter called the "new visit-zone") overlap with each other to the new visit-zone. --

Please amend the paragraph beginning on page 42, line 17 as follows:

--In the radio base station 42-1, the ~~controlling part 43-1~~controlling part 41-1 receives this reception level notice through an antenna 61-1 and a transmitting/receiving part 62-1, and transfers this reception level notice to the base station controller 40 through the communication link 53.

Please amend the paragraph beginning on page 43, line 13 as follows:

--In the radio base station 42-2, on the other hand, the ~~controlling part 43-2~~controlling part 41-2 uses transmitting power that satisfies the following conditions for the radio channel through which transmission is started, as the new channel. --

Please amend the paragraph beginning on page 43, line 22 as follows:

--Identifying the transmission demand, the ~~controlling part 43-2~~controlling part 41-2 starts transmitting to the new channel at transmitting power equal to the initial value described above (FIG. 6(6)). --
